

PRM02 Quality Policy

We have established this quality policy to be consistent with the purpose and context of our organisation. It provides a framework for the setting and review of objectives as well as our leadership commitment to satisfy applicable customers', regulatory and legislative requirements and to continually improve our management system, including:

- Communicate its quality objectives and its performance against these objectives throughout the Organisation and to interested parties.
- Take due care to ensure that activities are safe for employees, associates and subcontractors and others who come into contact with our work
- Work closely with our customers and suppliers to establish the highest quality standards.
- Adopt a forward-looking view on future business decisions which may have quality impacts.
- Train our staff in the needs and responsibilities of quality management
- Enhance the effectiveness and efficiency of the QMS through the use of a process approach.
- Commit to only make decisions relating to our QMS based on analysis of relevant data and information gathered as part of the continuing development and improvement.

Our policy is also to meet the requirements of other interested parties and in meeting our social, environmental, regulatory and legislative responsibilities. We have produced quality objectives which relate to this policy (QMF12 Quality Objectives). This policy is available to all interested parties on request as well as being published on our Company Noticeboard.
